Parent Teacher Organization

3rd GRADE BUTTERFLY GARDEN

In the 3rd Grade Butterfly Garden this year
we are growing these butterfly annuals:

Mrs. Baratz's Class: COSMOS

Mrs. Pitz's Class: BACHELOR BUTTONS

Mrs. Loeb's Class: MARIGOLDS

Ms. Merritt's Class: ZINNIA

These 'nectar plants' attract adult butterflies.

We will also plant 'host plants' for caterpillars, such as DILL.

Visit the Butterfly Garden during the summer
to see those and other butterfly plants - and visiting butterflies!

Caring For Your Butterfly Plants

Your plant loves lots of **SUN**. **WATER** when the soil feels dry.
Now watch for adult butterflies! Try planting DILL, CARROTS and
PARSLEY too to feed caterpillars.

Thank you parent volunteers
for redesigning and expanding the KES Butterfly Garden!!
